

FELLOWSHIP PROGRAM 2022/ 2023

The Collective Action Fellowship Program aims to accelerate the development of a new generation of leaders in impact private markets investing

BEING PART OF THE PARADIGM SHIFT

Imagine a future where our financial system fosters economic growth and at the same time, contributes to the solutions to the social and environmental challenges we all face. This is the new capitalism. In 2007, the term “impact investing” was coined by The Rockefeller Foundation, giving a name to investments made with the intention of generating both financial return and social and/or environmental impact. Fifteen years on, unprecedented capital is flowing into the space with many of the world’s blue-chip investment firms creating dedicated funds and products.

We have been in the middle of this shift since the ecosystem was incepted, and now bring together some of the world’s leading investors to facilitate this evolution with Collective Action. Our goal is to scale, accelerate and professionalize the impact investing ecosystem, focusing on highly relevant themes such as e.g., water, energy, healthcare, food, waste & circularity innovations. Our fellowship is part of this ambition; to educate and inspire new generations of leaders that incorporate profit and purpose into their investment decisions. We want to give our fellows an opportunity to peak into the world of impact, innovation and the paradigm shift taking place in our financial system.

WE WANT TO HELP YOU TO BECOME THE BEST

Private equity impact investing is one of the most exciting and innovative areas to start your career. There is also a need for highly skilled and driven investment professionals. We want to help these investment professionals accelerate, scale and professionalise this transition into the new world where we build a bridge between the “old” and the “new” and facilitate a change in the role of capital to realise the needed innovation, positive change and financial return.

COLLECTIVE ACTION

THE OPPORTUNITY

- The Fellowship Program starts on September 5th, 2022
- The program is divided into two modules: 1) gaining a full year of PE impact fund research and investment experience, 2) for exceptional candidates, we offer an additional 6 months inhouse training at a leading impact GP
- Office location: Laren, the Netherlands
- Full-time
- Compensation is market standard
- Working in a team of experienced impact investors
- Meeting and learning from rising stars in the impact space

IS THIS FOR ME?

This program is designed for young, ambitious professionals that aspire to a meaningful career in private equity investing. It is a rigorous 12 - 18-month program where you will be working closely with our team receiving education in impact private equity and venture capital investing, focusing on innovation and new leadership. The program is led by a group of impact and private equity veterans sharing their insight, network and experience.

- ✓ You are a strongly driven individual with ambition in impact investing, private equity, VC, and innovation
- ✓ You have completed your Master's degree (e.g., Finance, Sustainability, Law, Economics) or are close to completing
- ✓ Excellent communication skills are essential, as you are expected to present externally and write research papers
- ✓ Highly motivated team player with a hands-on mentality
- ✓ 0-4 years of relevant experience
